In order for a player to be listed as a "Dual Player", he/she must be playing on a men's or women's outdoor team which is registered with US Soccer. We must know the team name, league and division in order for the player to be qualified as a dual player. This information must be presented at registration.

**Refunds can not be made and the dual fee will not be applied without the information requested.**

**Note: List only those players who are new for the current season, i.e.: players listed for the fall season should not be listed again in the spring and players listed for the spring season should not be listed again in the summer (if applicable).**
